Community Emergency Response Team Training

"Preparing the Napa Valley"

Following a major disaster, emergency responders in Napa County will not be able to meet the demand for response. Factors such as number of victims, communication failures & road blockages will prevent people from accessing emergency services they have come to expect at a moment's. People will have to rely on themselves for help in order to meet their immediate life saving & sustaining needs. ***You may be on your own for several hours to several days!***

Are you prepared to help yourself, family & neighbors in the event of a major disaster? Do you know what utilities to shut off in your home and how? Do you know how to extinguish a fire before it becomes large? Do you know the basic first aid techniques that can save a life? These questions are answered in a course now being offered to the residents & workers of Napa County with the co-operation of the County of Napa & the Cities of Napa, American Canyon, Calistoga and the Napa Valley College. It consists of 6 classes in a 2-week period covering a series of topics in a 20-hour format that are taught in a ***"hands on"*** environment. All registrants must be at least 16 years of age & those 18 & under must register & attend all classes with a parent/guardian. ***This course will begin February 5th, 2008 in Napa. It's titled "Academy #52" and is scheduled as follows;***
